What is not included: Your water and food + personal and medical expenses + your entrance fee to Torres del Paine National Park + your stay at Grey Camp + travel insurance.

Recommendations: Bring water, sunscreen and sunglasses. Also, we recommend some previous experience due to the unpredictable weather conditions of the place. Despite being a lake, it is subject to constant changes in wind speed, as well as rain and cold, so we consider it a medium-high difficulty activity.

Itinerary:
Grey Lake is almost 17 kilometers long and 4 kilometers wide, has several capes, peninsulas, coves and is fed mainly by the glacier. Our excursions take you to the east side of the ice wall, where we have different spots for an unforgettable experience. From the water you have the possibility of finding yourself immersed in a unique landscape, surrounded by Paine Grande Hill, the Olguín Mountain Range, the glacier itself, among many other panoramic views.
Our daily excursions last approximately two hours and a half. To begin, we will give you a wetsuit, boots, waterproof jacket, helmet, skirt, life jacket and a paddle with built-in gloves and you will receive a safety briefing.
We will sail in an area of icebergs, which often get stuck in the bay, forming an unrepeatable scenario. We will go to the east face of the glacier. The return is made by the same route, completing a total of almost 6 kilometers of paddling. The excursion includes a snack and hot drinks.
